

# BASELINE CYBERSECURITY

Mandatory Level of Information  
Security

## ARE YOU PROTECTED AGAINST CYBER ATTACKS?

The need for Protection of Information and Information Processing System is growing with the growth of Attacks by Internal and External Hackers.

Cyber-Attacks are increasing in numbers and sophistication. Level of Information Security (InfoSec) must be evaluated regularly and updated to meet the new Challenges and Threats.

Addwise was established in the year 1990 and is providing consulting services for assessment and designing of **IT Infrastructure and Information Security Architecture**. The company has worked with many national and multinational organizations and is recognized for the professional and timely delivery of services.

- IT Security Policy
