

WEB APPLICATION ASSESSMENT

 Your website is your first contact and organizational image to the Digital Business World. It can Enhance or Damage organizational Digital Reputation Worldwide.

Weakness in Web Application or Hosting Services can encourage Web Defacement and provide data theft opportunity for cyber-criminals.

Identify weakness by our Web Assessment Service before cyber-criminal can exploit them.

 Addwise was established in the year 1990 and is providing consulting services for Assessment and Designing of **IT Infrastructure and Information Security Architecture**. The company has worked with many national and multinational organizations and is recognized for the professional and timely delivery of services.

- 
- Optimize for Search Engine
- Acceptable Performance for Users
